Live Life Full Spectrum

Introducing Mosaic: A new line of premium CBD products set to make a big impact.

[February 2019] Kretek International, Inc is pleased to announce the arrival of Mosaic. This innovative company is offering cannabidiol (CBD) through a collection of new, easy-to-use products, including gummies, tinctures, and soft gels. Mosaic is on a mission to provide quality, purity, potency, and value to its customers, and will be making its first appearance at the Tobacco Plus Expo (TPE) this month.

Research has shown promise for the benefits of CBD use, the hemp plant extract known for its multitude of widely-researched compounds called cannabinoids and terpenes. Mosaic is named after the heralded “Entourage Effect” of Full Spectrum CBD, which is believed to provide a synergistic, whole-plant effect that maximizes the capabilities of CBD. Mosaic products offer these multi-faceted compounds in their natural integrity, as nature-itself intended. Their gummies, tinctures, and soft gels are formulated to hold the highest of standards for purity, quality, and potency, while meeting the existing FDA and GMP (Good Manufacturing Practices) for quality assurance, as well as for anticipated additional guidelines to come.

“There’s a lot of buzz out there for CBD products, but some confusion as well,” says Mark Daniells, CBD Category Manager at Kretek International, Inc. “The options are plentiful, but when it comes to quality assurance, the choices aren’t obvious. With Mosaic’s natural, full-spectrum approach to CBD and core ideals of purity, potency, quality, and value at their core, their products truly stand out from the rest. We’re pleased to have them in our portfolio, and know they’ll be well-received by retailers and consumers alike.”

Mosaic CBD products feature:

- Lot-specific COAs.
- 3rd party lab testing.
- Full track and trace transparency.
- Packaging compliant with the most stringent state requirements

Those attending TPE 2019, held in Las Vegas, Nevada from February 11-13 will get a first look at Mosaic's initial product line. This includes:

- 5 Gummy flavors, including wild cherry, watermelon, and strawberry.
- 4 Tinctures in 300, 750, and 1500 mg sizes.
- 3 Soft gels in 300, 750, and 1500 mg sizes.

Mosaic products will be distributed by both Kretek and Phillips & King. To check out Mosaic and its products at TPE, head to the Kretek booth (#4054) or the Phillips & King booth (#4066). Or visit www.mosaichealthcbd.com for more info.

About Kretek International, Inc

Kretek International Canada was founded in 2000, as a branch of Kretek International, Inc, which is the United States' number one importer, marketer, and distributor of specialty tobacco products to convenience, mass, and national retailers. For over 30 years, Kretek has enjoyed a strong reputation for providing exceptional customer relationships and top quality goods. Kretek International Canada has followed in the path of its parent company, offering the same outstanding service and specialty tobacco products to the Canadian market.

About Phillips & King International

Phillips & King International, a division of Kretek International Inc., is the leading distributor of premium cigars, specialty tobacco, vapor, and alternative smoking products and accessories in the United States. Since 1906, the family-owned company has built a strong reputation by focusing on independent brick-and-mortar shops, priding itself on offering top products and the best service to their customers. Their highly experienced sales staff works with thousands of shops in all 50 states, US Virgin Islands, Guam, Puerto Rico, and globally to US military bases. The company distributes over 21,000 SKUs, warehoused in a 150,000 sq. ft. semi-automated facility. In addition, they have a portfolio of proprietary brands including Ventura Cigars, Ventura Vapor, Greenhouse, EZ Cig, FasFil, and more. Phillips & King also distributes the Price Cutter, a monthly buying guide that outlines best-selling products, deals, and information for the tobacco and tobacco-related industry.
